

# Timer Challenge

This is an all-against-all game where the best guess wins.

**Equipment needed:** A timer

**Number of players:** 2 - 200

## How to play

Find a timer that has an alarm which can be set between 15 seconds and a minute. Tell the group that their task is to guess how long 15 seconds is. To begin with everyone must remain seated. You will count down 3-2-1 and start the timer. Players will have to guess the passing of time and stand up when they think 15 seconds is up. The last player to stand up BEFORE the alarm sounds, is the winner. If two or more players stand up at the same time, they can go through to the final. No watches, devices or phones can be used. You might also want check where the clock is on the wall!

It's handy to have a number of leaders on the lookout to help spot the winner.
