

RAG DODGEBALL

Instructions:

Everyone stands in a circle, then they plant their feet in whatever way they want. But they can no longer move their feet, except to go get a missed throw.

You toss someone a rag tied into knots. You can't hit the people directly next to you until you get down in numbers. No headshots.

You are eliminated in three ways:

- You get hit
- Someone catches your throw
- You move your feet

Have everyone take a step in to close the circle up as needed. Or completely reform circle. Last one standing is the winner.
