

EVANGECUBE AND eBALL

A FEW TESTIMONIALS OF HOW THESE WORK:

- "There are many witnessing tools I use yet this is the most effortless while I'm working. The eCube Classic sits on the side of my desk and inevitably most everyone who stands to speak with me for any amount of time picks it up. As we are chatting they are flipping it. Without fail, I am able to share the Gospel simply from the curiosity the eCube Classic generates. I highly recommend the 'Between You and God eTrack' as well. This gives them something to take home when the eCube Classic is returned to its waiting state."
- "Been afraid of sharing the Gospel? Now anyone, using the Evangecube, can share the Gospel with confidence. After a while, the cube pictures are fixed in your mind and YOU can share Christ by remembering the pictures and what they mean."

The new eBall is a tournament-quality Size 5 Soccer Ball that's been completely redesigned and rebuilt to stand up to rough playing conditions. Using the five colors, you can simply share an effective Gospel message that connects with hearts.
